Caseificio Artigiana

Caseificio Artigiana is an esteemed artisanal cheese brand nestled in the beautiful Italian countryside. With a legacy of craftsmanship and a deep connection to the land, their skilled artisans have perfected the art of cheese-making over generations. At the heart of Caseificio Artigiana's philosophy lies a commitment to sustainability and preserving the natural beauty of the environment. They source milk exclusively from local farms, where cows graze freely on lush pastures, ensuring the highest quality and natural goodness in every batch of cheese. This harmonious relationship with nature is reflected in their traditional methods, minimizing waste and maximizing the use of renewable resources.

La Donzelletta

La Donzelletta products are the result of a cheese-making tradition that has been handed down for four generations and of the skilful combination of natural ingredients. The strong point is the creation of an industrial product which maintains the taste and flavour of traditional craftsmanship. The Amodio Group has been present in the agri-food sector since 1825. The dairy products of "La Donzelletta" represent what the company has handed down over the years from generation to generation: the passion for good, genuine and authentic food.

Pinna Sapere Sardo

The Pinna brothers started their business as cheese traders in Thiesi, Sardinia in 1919, specializing in Pecorino cheeses. In the 1950s, their sons created a modern dairy that processed milk from flocks all over Sardinia, producing fresh and delicate cheeses with unique flavors. The company now has a turnover of over 60 million euros, processing over 40 million liters of milk per year and selling almost ten thousand tons of products in twelve months. They use modern technology and quality certifications to ensure safe and tasty food, and invest heavily in technology and innovation every year.

Madama Oliva

Madama Oliva

The history of Madama Oliva began in a Castel which was called Castel Madama a small rural place close to Rome where some families dried and sold black table olives. With the increase in passion and commitment, it leads to surprising results and it was appreciated and liked by the people. It was believed that people encouraged it in the year 1989 in Carsoli and within few years it was not only the first Italian export company but also the main supplier of fresh packed olives of the great Italian distribution.

Gruppo Vercelli

Gruppo Vercelli, one great passion running through two generations: Italian veal of high quality! The history of the Vercelli Group starts over 50 years ago, when the Vercelli brothers, Pietro and Vittorio began to trade in cattle on the Italian and foreign markets. Today the Group is the market leader for its scale of production and for the level of integration within the national supply chain. While it is still the family who provides the main support through its commitment and experience. Vercelli carries on the family tradition and passion: excellence in the supply of Italian veal, guaranteed from the farm all the way to the table.

Goro Pesca, known as "Picturesque " has a history that began in the 1970s when their four devoted fishermen, driven by their deep love, for the ocean embarked on an extraordinary journey. They started as a business raising and distributing fish along the shores of the Po Delta often manually pulling in nets. Despite facing market uncertainties during the 1990s they remained steadfast in pursuing their dreams tied to the sea.

GALATEO & Friends®

Galateo & Friends

Galateo & Friends was founded in 2002 in Arma di Taggia, Liguria, Italy by Marco Bonaldo, who also created Terre Bormane. Galateo & Friends focuses on the production of high-quality taggiasche olive oils, balsamic vinegars, dressings, and other delicate products.

Galateo & Friends embodies an alimentary concept conveyed by the slogan "goodness is enclosed in beauty," offering the best of Italian culinary excellence. The art of good living, which has always been a distinguishing feature of Italy, has inspired the rest of the world as well as Galateo & Friends. This unique project always prioritizes the quality of the production line and combines it with a high-quality food design line featuring a collection of tableware designed by the renowned creator and global designer Jacqueline Morabito.

ELEMENTS
extraordinary virgin olive oils

CORATINA

GAL03095

INTENSE FRUITY
Color: golden yellow with green glares.
Scent: rich in fresh herbs notes.
Taste: bitter and spicy with notes of artichoke and unripe tomato.
Matches: egumes and/or cereals based soups, first courses with radicchio, ragout, chicory and grilled red meat.

TAGGIASCA

GAL03098

LIGHT FRUITY
Color: golden yellow.
Scent: delicate, of ripe olives.
Taste: fruity, with a delicate almond fragrance.
Matches: Fish recipes, rice based dishes, white meat, delicate sauces, patisserie.
Thanks to its slightly fruity fragrance and to its marked sweet sensation, it exalts the food characteristics, without firmly interfering on the taste of the dish.

NOCELLARA

GAL03097

INTENSE FRUITY
Color: intense green.
Scent: firm, with vegetable notes.
Taste: fruity and slightly spicy, with notes of wild grown vegetables.
Matches: served raw on vegetables, salads and oil dip, baking fish and on Mediterranean dishes.

FRANTOIO

GAL03096

MEDIUM FRUITY
Color: gold yellow.
Scent: rich in aromatic scents.
Taste: ample, harmonic and with vegetable fragrances.
Matches: bruschette, vegetable-based first courses, red meat, cheese.

CARBONE Extra Virgin Olive Oil with Charcoal is a true innovation in the culinary world. The glossy black CARBONE oil is highly aromatic and has a unique viscosity that makes it perfect for use as a decorative finishing touch on dishes. This innovation is designed to inspire chefs, offering a new way to enhance and present their culinary creations.

The infusion of charcoal powder derived from bamboo plants not only gives the oil its distinct black color but also adds a depth of flavor that compliments a variety of dishes. Whether drizzled over a fresh salad, used to finish a savory entrée, or incorporated into a dessert, CARBONE is a versatile ingredient that elevates any culinary creation.

Introducing the Galateo & Friends and Burton Morris Collaboration

Experience the Collaboration

The collaboration between Galateo & Friends and Burton Morris represents a bold and innovative step in the specialty food industry. By combining premium culinary products with iconic pop art, this partnership not only enhances the aesthetic value of everyday items but also celebrates the intersection of art and food. This collaboration is sure to delight consumers and collectors alike, setting a new standard for creativity and quality in the market.

Significance of the Collaboration

The partnership between Galateo & Friends and Burton Morris is a groundbreaking venture that merges the worlds of gourmet food and contemporary art.

This collaboration is significant as it brings together the culinary artistry of Galateo & Friends with the visual brilliance of Burton Morris. The result is a collection of products that are not only gourmet delights but also collectible art pieces, transforming everyday culinary items into visually stunning works of art.

This fusion of food and art offers consumers a unique sensory experience, elevating everyday culinary products into the realm of fine art. Morris gained widespread recognition when his artwork was featured on the set of the iconic TV show "Friends," particularly in the Central Perk coffee shop. His paintings, such as the steaming coffee cup, became synonymous with the show and added a contemporary flair to the set.

Over the years, Morris has created artwork for major events such as the Academy Awards and the Olympics, solidifying his reputation as a leading figure in contemporary pop art. His work continues to resonate with audiences worldwide, making him a perfect collaborator for Galateo & Friends.

**GALATEO
& Friends**

Burton Morris is a celebrated contemporary post-pop artist known for his vibrant, energetic style. His work often features bold lines and vivid colors, depicting everyday objects and cultural icons. Two of his early influences were Albrecht Durer & Rockwell Kent. Morris's art is recognized for capturing the essence of popular culture with a fresh and dynamic approach.

The culinary world is set to be invigorated with a new collaboration that melds gourmet food with contemporary pop art.

Ranise

Ranise's history dates back to 1995 when they set out to revive their ancestral olive groves in Dolcedo, Liguria. Starting with a small packaging workshop, they later moved to Imperia to expand production. Now headquartered in Chiusanico since 2013, they specialize in producing and packaging PDO olive oil and specialty products from the local area, including their flagship Ligurian Pesto made of PDO Genovese Basil and other Ligurian ingredients. In addition to prioritizing product quality, they pay great attention to presentation and marketing.

Compagnia Del Montale

Compagnia Del Montale was originally born in that part of the Po region that later became the dominion of the Este House. More precisely, in the territories that were historically subject to the city of Modena.

Here, a family vinegar was produced, differing from all others: for a different attitude, use, procedure and final result. It can hear and tell the story of a family, people, land. More than revealing itself spontaneously, it lets it be discovered by those that can understand it with open heart.

Once upon a time, it was reserved to the few families from Modena inheriting this extremely old tradition through centuries, then it was taken from the garrets of noble and middle-class houses and welcomed everywhere. Using it wisely, it can reserve many pleasant and exciting surprises while cooking.

Pasta & Rice

From Italy

Giuseppe Cocco

Experience the authentic taste of Italy with Pasta Cocco, a brand that stands out as one of the best pasta producers in the country. What makes us unique is their traditional old machines that have been passed down through generations of pasta makers. Giuseppe Cocco, who rebuilt the necessary tools after World War II, has continued his father's know-how to create delicious Italian pasta.

These pastas are made in the Fara S. Martino region, which benefits from an ideal climate of dry and ventilated air, along with a natural spring. This perfect combination creates the ideal drying conditions for our pasta, ensuring that it maintains its distinct flavor and texture.

Giuseppe Pasta Cocco is one of the few remaining pasta producers in Italy who use such artisanal methods, which translates into plates that are appreciated by many chefs worldwide. Elevate your pasta dishes with Pasta Cocco and savor the true taste of Italy.

Pastificio Dei Campi

Pasta is the unquestionably best known and most exported Italian specialty in the world, and for centuries it has found in Gragnano, with its mild and slightly humid climate, the ideal place for its production. It is as far back as the sixteenth century that we have the first evidence of a proto-pasta industry in our area, destined to grow to such an extent that, as early as the eighteenth century, it led to an urban reorganization with the creation of the sinuous and wide Via Roma, apt to favor the passage of the humid sea breeze and to maximize exposure to the sun, ideal conditions for drying pasta. By the early 19th century the town of Gragnano was already world famous for the quality of its macaroni, counting at that time more than 70 pasta factories, destined to become 100 by mid-century.

The twentieth century was the century of industrial processing, technological innovations and increased production. With the new millennium came the fruits of so much passionate work: since 2013 Gragnano Pasta has been protected by the I.G.P. mark, which certifies its exceptional production history at the European level.

Molino Spadoni

In 1921 the historic mill of Coccolia (RA), dating back to 1445, became the property of the Spadoni family. With three generations – first with Livio Spadoni, then Libero and today Leonardo – the mill began its evolution, implementing a policy of diversification and interpreting over time the new food styles and the needs of modern consumers.

AMARENA BLACK CHERRY

TOS02052 **510 G**

TOS02057 **2.75 KG**

The Amarena cherry is a small sour dark colored Italian cherry grown in Bologna and Modena, two cities of Italy. It is usually bottled in syrup and used as a decoration on rich chocolate desserts. The Amarena is a variety of the Prunus cerasus developed by Gennaro Fabbri who was born in 1869 in Bologna, Italy.

Eurovo

The Eurovo Group is one of the first companies in Europe to invest in alternative farms and in modernisations of existing farms in a view of animal welfare regulations.

Each Eurovo herd is regularly monitored and the management and care of the animal is entrusted to competent and trained personnel who constantly monitor the environmental values, well-being, feed and health of laying hens. The hens are bred in compliance with their well-being and current regulations.

Azienda Agrimontana, founded in 1972 in Borgo San Dalmazzo (Cunéo) in Piedmont, Italy, quickly became the market leader for chestnuts, candied fruit and jam in Italy. The main reason for this success is that, from the very beginning, Agrimontana has only worked with natural ingredients, never used colorants, preservatives or artificial flavorings. Moreover, Agrimontana only uses fruit grown in Italy. Our range also includes products for making real Italian gelato: bases and pastes with all natural ingredients.
