

Weiss Chocolates

Weiss

LE CHOCOLAT DEPUIS 1882
FRANCE

More than 135 years after its creating, Weiss has maintained a heady passion for chocolate with a team of professionals that demonstrates the utmost enthusiasm for this complex yet natural product.

Eugène Weiss' signature is still found on our blends of cocoa beans of different origins that he first imagined. It is thanks to our expertise in chocolate creation and our in-depth knowledge of each terroir that we are able to define the perfect combinations and thus create unique chocolate couvertures that respond to your needs and inspire your creativity. Weiss is constantly seeking exceptional and original aromas and has become an expert in blending different cocoa beans from the same country. We select and blend beans from different regions in a single country in order to capture the authenticity, bring out and enhance the aromatic profiles of each origin, and reveal their individual potential.

Gluten Free

Discover the new vegan chocolate by Weiss.

The organic beans are coming from a small cooperative in Dominican Republic. Those plant-based couvertures are made with rice and coconut whose incredible softness and smoothness in the mouth are reminiscent of milk.

They also have a low sweetness index, with the right amount of sugar, without compromise on delicacy and taste.

100 % of those couvertures are Clean Label.
